

Twin Spot LED Emergency Light

FEATURES

- LED Type: SMD LED
- Battery Type: Ni-cd
- Working Time: 90 minutes
- Charging Time: 15-24 Hours

Technical Drawing

Model No	Power (W)	Lamp Type	Input Voltage	Frequency	Discharge
EXIT-836	2W	2x1.6W LED	120/277VAC	60Hz	90 minutes

DESCRIPTION

- Injection-molded thermoplastic ABS housing
- UL-94V-0 flame rating, fire-retardant
- Wall and ceiling mounting
- Input Voltage: 120/277YAC or 120/347VAC 60HZ
- 2x1.6W lamps for emergency mode
- Nickel Cadmium 8attery
- Test switch and charge indicator light
- Overcharge & Over-discharge protection
- Backup time: ≥ 90minutes
- Conversion time: <0.2 second
- IP Class: IP20
- Insulation: II, Range: 80m²
- Operating Temperature: 0°C-40°C
