

Parameters

Solar Panel	STW-020B6
Rated Output	2W
Dimensions	160x80mm
Material	PET
Max Power Voltage	6.6V
Max Power Current	0.5A
Operating Temperature	-48°C~120°C
Battery	
Capacity	2600mAh
Nominal Voltage	3.6-3.7V
HOLD-Time	48Hours
Type of Battery	Li-ion
Protections	overload
LED Lamps	
Number of lamps	20pcs SMD
Operation Input Voltage	6V
Power Consumption	3-5W
Waterproof	Ip65
Operation Temperature	-10°C~85°C
Detection Zone	6-8m
Detection Angle	120 degree

Features

- ◆ Solar Powered&High Efficiency
- ◆ Built-in rechargeable 18650 lithium battery. The new bigger solar panel ensures a longer working time.
- ◆ 3 Intelligent Energy-saving Modes: Auto on at dusk and off at sunrise; dim+bright when motion detected. off+bright when motion detected.
- ◆ Motion Sensor Detector: Greater PIR sensor detects people up to 26 feet within angle of 120 degrees
- ◆ Waterproof Ip65 and Heatproof: Great outdoor security night light for wall, patio, garden, porch, lawn, pathway, gutter, etc. It's specifically designed to withstand extreme weatures conditions.
- ◆ Easy Installation: Features 2 Keyholes in the back to easily hang solar light on or off the screws.
